

Awakening the Illuminated Heart

Intensive 4 day-workshop with Irene Viglia Atton

Øystese 20.-23. september 2012

Bjørnebruket, Rykkje

An incredible journey of awakening and remembering. Mother Earth is guiding us through ascension (oppstiging). Humanity is finally ready to evolve (utvikle).

This workshop is designed to connect you to the sacred space of the heart, teach you how to create from the tiny space of the heart and from there to activate your Merkaba. These are all sacred and ancient tools that Humanity is now ready to learn in order to ascend in unity consciousness.

School of Remembering

Drunvalo Melchizedek

Irene is honored to present this great work, introduced for the first time in August 2011 by her Mentor Drunvalo Melchizedek. This workshop includes all studies by Drunvalo throughout his lifetime entering the sacred space of the heart, creating a new world from there and the activation process of the Merkaba field.
